

FILIPINO STUDENTS TRAIN FOR FREEDOM

140 Sent by Government Now
in U. S. Schools
Preparing.

ABLAN IS IN M. U.
Is Graduate of Philippine
Normal School—To Spec-
ialize Physical Training.

"The Filipinos desire their independence. That is one of the reasons why Filipino students are sent here by their government to specialize in various branches of education in the U. S. schools," says Pedro Ablan, who arrived here Wednesday and has entered the University. There are 140 of these students in American colleges now.

Seventy-eight of these came to the United States this month on the same boat with Mr. Ablan. They left the islands August 9 and landed in San Francisco September 10.

Five students, including Mr. Ablan, will specialize in physical education, and have signed three-year contracts to study in the United States. One went to Chicago, three to the Springfield (Mass.) Training School, and Mr. Ablan has entered the University of Missouri.

"I am a graduate of the Philippine Normal School at Manila, a school of between 800 and 900 students," said Mr. Ablan, "and taught mathematics three years in the high school in my home town, Laoag, which is the capital of the Province of Ilocos Norte. I was coaching the high school track and field teams, when the government decided to send me to the United States. I came to the University of Missouri because I thought it gave good instruction in track and field training.

"We do not play football such as you do here," continued Mr. Ablan, "but in Manila they play soccer. Basketball, baseball, track and field are quite common everywhere."

The signs in the driveway at the south of Academic Hall, with the wording "No Parking Here" have been taken. They are essential for the protection of space for the postoffice, express and University vehicles. Information leading to their recovery will be appreciated.

SAYS GERMANY HASN'T LOST

Mlle. Xhrouet Returns From Visit in Belgium.

"Germany has lost nothing," said Mlle. Adele Xhrouet of Brussels, who arrived in Columbia yesterday. "The people of my country expect another war with Germany. Perhaps it will not be for fifty years but it will surely come."

Mlle. Xhrouet is the French instructor of Christian College. She spent the summer in France and Belgium. It had been seven years since Mlle. Xhrouet had visited her home, and she says Belgium is very much changed. During the German occupation the Belgians were forced to do inferior work and their products are of lower grade. Prices are enormously high. Mlle. Xhrouet applied for return passage two months before it was granted. She sailed August 27 on the French liner Lorraine.

OBSERVE JEWISH NEW YEAR

Students Hold Services in the Y.M.C.A. Building.

The first student services in observance of the Jewish New Year were held last night at the Y.M.C.A. auditorium. Closing services were held this morning. The New Year is celebrated in observance of one of the laws laid down by Moses.

The most important Jewish celebrations will be held Saturday, October 4. It is called the Yom-Kippoor or Day of Atonement. At that time every one is supposed to have his sins forgiven and enter upon the New Year with a clean record. Those who have quarreled shake hands and become friends again. This day is observed with a fast which begins at sundown Friday evening and lasts until sundown Saturday.
